Erasmus+

ERASMUS+ SPECIFIC OBJECTIVES:

- Increase the **quality of the work and practices** of the organisations and institutions involved, by opening up to new players who do not normally fall within an industry.
- **Develop** the **capacity of organisations** to work at transnational and cross-sectoral level.
- **Respond** to **common needs** and priorities in education, **training**, youth and sport.
- To make possible **transformation and change** (individual, organizational or sectoral level) as vehicles for improvement, proportionately to the context of each organization.

KA210ADU - SMALL SCALE PARTNERSHIP SPECIFIC OBJECTIVES:

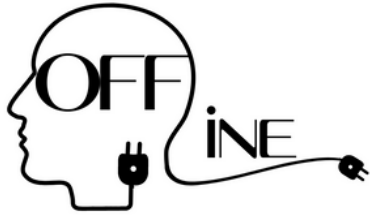

- Attract new participants, less experienced organizations and small operators and expand their access to the program. These partnerships should be the organisations' first step towards cooperation at European level.
- Support inclusion of target groups with fewer opportunities.
- Support active European citizenship and bring the European dimension to the local level.

Erasmus+

OFFLINE

SPECIFIC OBJECTIVES:

- Strength the multidisciplinary skills of trainers to be able to identify psycho-physical risks from digital hyper-connection.
- Promote the development of digital skills for trainers, to prevent the risks of psycho/physical discomfort resulting from the overuse of media devices.
- Promote the development of common European values, civic engagement and participation of European citizens participating in the project, thereby contributing to the affirmation and dissemination of European culture of respect, tolerance, health and well-being, in every aspect of quality of life

PARTNERSHIP

NED

WHO WE ARE

NED (New European Dream) is an association and a think tank that creates synergies between the central-southern territories, local and European institutional bodies, Italian and foreign associations, experts and young people sensitive to Europe, environment, gender equality, legality and safety.

EUROPE

We inform, educate and are committed to spreading European culture and planning to intercept opportunities and funds.

CONFRONT

NED is a meeting and comparison space. We talk about European, international and national politics. We defend political, civil and social rights inspired by equality and non-discrimination, in a context of secularism and democracy.

DESIGN

For us, planning means actively contributing to the development of the territory, especially the inland areas and the Centre-South. Knowing how to intercept European funds means create political, social and economic opportunities and favoring the process of European integration.

TEACH

If planning is our way of changing the world, training is the engine that triggers change. We start from books and get to practice, because the only way to learn design is to design.

NET

Networking is a great opportunity, for small territories.
In our network there are local authorities, associations, companies and experts.

OUR STORY

2020

NED was born during the first lockdown, in March 2020; when everyone closed, we started networking.

2021

The NED Academy is born, our school for future designers from Europe and beyond. The network has expanded: we have met institutions, entrepreneurs, third sector bodies, Italian and international experts.

2022

NED wins first projects and the network grows, especially the relationships with international partners.

2023

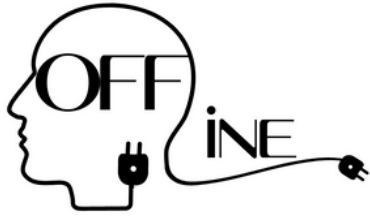

NED won other two project, the network grows another time and new projects are in working

NED

ACADEMY

In the NED Academy there are professionals and consultants who want to change the vision and approach to design by looking not only at the short term but at the long term. The designer is not a form filler, but a partner with whom to build the future of his customers.

Our courses adopt a format that is accessible to everyone, from students to managers. Classes are online, live and on demand. We believe in confrontation and try to guarantee the possibility of interacting with the professionals who hold the lessons continuously.

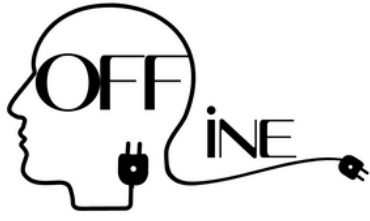

The aim of our courses is to spread the culture of European planning and provide the necessary tools to access alternative funding funds for project implementation and internationalisation.

Erasmus+

2007

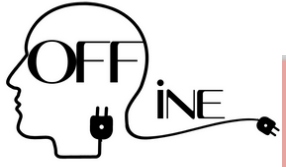

The association was born around the idea of dialogue between people and especially women of different cultural traditions, to support them in times of difficulty, to guide them in their careers and to help them understand each other and collaborate constructively.

Erasmus+

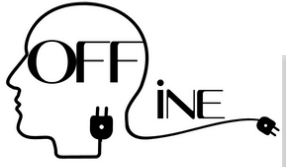

One of our main objectives is to promote women as the engine of society's development, thus guaranteeing gender equality: we want to support women in difficulty, giving them back their dignity and bringing them back to the center of attention that their role deserves.

Erasmus+

Personal development

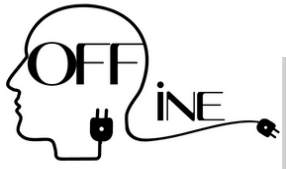

Through the exchange of ideas, projects and initiatives on an international level, we are involved in social promotion, support and personal development.

ERASMUS +

The objectives of this project are to promote the conscious development of basic entrepreneurial competences and key skills of migrant women and to support them in raising awareness and developing these skills in order to promote employability and socio-educational development and participation in civic and social life.

The key objectives:

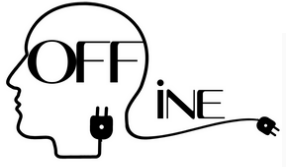

- Strengthening women in family businesses (especially those whose husband died and had to take over the business, who just started work, and who are students),
- Evaluating the opportunities for equal opportunity and work-life balance,
- Supporting women's entrepreneurship in family businesses including leadership positions,
- Encouragement of equal rights culture for men and women and saving the rights of women as equal as the rights of men.
